**VISUAL IMPACT ASSESSMENT**

**MOOLARBEN COAL PROJECT – Section 75W**

**762-A-03**

---

Dear Alan,

I have received and reviewed the drawing titled "section 75W rev. 1 layout 1" as forwarded by email on the 30<sup>th</sup> march 2009. The notes accompanying the email identify the proposed changes to the configuration of the proposed rail loop adjacent to the Moolarben Coal Project - coal preparation and handling area.

The proposed amendments create no material change to the visual impacts as assessed in the Visual Impact Assessment dated 26<sup>th</sup> May 2006 reference "762-Z-05" that forms part of the Moolarben Coal Project - Stage 1 Environmental Assessment.

Yours faithfully,

Edward (Terry) O'Hanlon. RAIA
